“Memories”

Today, **memories** are considered a function of your brain.

You have a short-term memory, and you have deep cranial memory.

You also have a **memory** level that is unconscious.

It works when you are sleeping or “knocked-out” to keep your body functioning (breathing, heartbeat, etc).

This is often referred to as the lizard brain. Technically, it is the **medulla oblongata**.

But, the Bible shows your **memory** to be more than a brain function.

It is also seen as a function of your heart – Not your heart muscle, but your inner man.

Sometimes referred to as the “carnal mind”, it can and should be renewed.

The carnal mind wants to store **memories** from your past. Things you don't like. Things that are painful and hurtful.

But, there is a beautiful side to your **memories** as well.

Memory is where your testimony is stored – Everything that God has done for you in times past is all part of your testimony.

The Apostle Peter said that we should be able to recite at a moment's notice why we have **hope** in the Lord.

Do you use your testimony?

They overcame him by the blood of the Lamb, and the Word of their testimony. ~ Revelation 12:11

Challenge Reminder:

Read five chapters in the Word and pray in tongues for 30 minutes.

"Likewise the Spirit also helps our weaknesses. For we do not know what we should pray for as we ought, but the Spirit HIMSELF makes intercession for us with groanings which cannot be uttered. Now He who searches the hearts knows what the mind of the Spirit is, because He makes intercession for the saints according to the will of God." -Rom. 8:26-27
